Building Control Charges

“Helping people design and construct safe and sustainable buildings”

Applicable from 1st April 2015, VAT payable at a rate of 20%.

All Building Control charges should be paid on deposit of all Building Regulation Applications and cheques made payable to MCC or Monmouthshire County Council. Please contact the relevant Building Control Surveyor <http://www.monmouthshire.gov.uk/buildingcontrol/> if you are unsure of the appropriate Building Control Charge.

Full Plan Charge

Full Plan charges are listed in the following **Tables A, B and C**.

Building Notice Charge

Building Notice charge is the same as the Full Plan Charge.

Regularisation Charge (retrospective applications)

The charge required when depositing an application for Regularisation is 100% of the appropriate Charge listed in the tables A, B or C **excluding** VAT, however an additional 50% premium added to it. This type of work is exempt VAT. E.g. an unauthorised loft conversion less than 60m² will attract a charge of £615 (vat not applicable) plus 50% = £922.50

Partnering Schemes

Please contact the Building Control team for an individually determined Fee.

More than one proposed domestic extension to a property

Where the same property has more than one proposed domestic extension, the floor areas can be added together to establish a total floor area for the purpose of Table B (extensions to dwellings). However, if the floor area exceeds 80m² then table C will apply.

Combination of work types (Domestic properties)

Where a project involves a mix of domestic building work, charges from the different tables can apply to the overall build project. Each element should be assessed separately and the relevant charges added together, some examples include;

- 1) Where a domestic property is to be extended (say 10m²-60m²) and having other work carried out such as a structural opening(s), drainage for new toilet/shower(s), installation of a septic tank, treatment plant or cesspit, new window(s), new heating appliance, new stair(s), new roof window(s), solar panels, electrical re-wiring or thermal elements that are not directly associated with the extension, these separate elements of work are captured in Table B or C and **added** to the set fee extension

eg. Extension 10-60m² (£630) + replacement windows (£195) = £825+vat. However, if any such building work is carried out by a person who can self-certify and are registered under one of the Government's competent persons schemes (CPS) such as FENSA, OFTEC, HETAS, ELECSA then no charge will be incurred for that element of building work.

- 2) Where a domestic property is being extended (10m²-60m²) and having its loft converted (say with a floor area less than 60m²), both elements of work should be added together (£630 (extension) + £615 (loft conversion) =£1245+vat).
- 3) Where a domestic property is being extended (60m²-80m²), having a detached garage less than 60m² and having internal alterations (e.g. new stairs, structural opening that is not directly associated with the extension), the three elements should be added together (£735 (extension)) +£435 (detached garage) + £175 (internal alterations say £0-£2,000) = £1345 + vat).

Table C work – Estimated cost of work

Any building work that does not fit into Table A and B should be determined in Table C.

Below are some approximate estimated costs for building work that may be useful;

Domestic extension £800 - £1,100 per m²

Domestic garages/carports £560 - £700 per m²

Domestic loft conversions £750 - £1,000 per m²

Domestic Barn conversions £900 - £1,800 per m²

Commercial work, this can be satisfied by providing a commercial estimated cost of building work or determined with the Building Control team.

All Non-Domestic Work – This should be determined from Table C.

Schemes falling outside Table C (those in excess of £200,000)

Please contact the building control team.

N.B

There are some exemptions under The Building (Local Authority Charges) Regulations 2010; Regulation 4.
