	1 X 30 hrs
<b>POST NO:</b>	SAS115
<b>SECTION :</b>	Direct Care
<b>GRADE:</b>	Band D [SCP 17 to 21 - £17,547 - £19,939 pro rata per annum]

<b>RESPONSIBLE TO:</b>	Head of Care / Duty Officer

### **Severn View Resource Centre.....Who are we?**

- We are part of the council and provide services to people of Monmouthshire who are no longer able to manage successfully at home
- We provide the following services:
- Residential Dementia Care – providing a safe and supportive environment for those living with a dementia.
- Respite services – short term respite stays to enable carers to have a break.
- Reablement Services – supporting people in the short term to help people regain independence and ensure that services if required in the long term are tailored to individual need
- Day Care Services – Providing opportunities of social stimulation and occupation for older people living in the community. This may be through attending our in-house Day Services provisions or being assisted to make other connections within the community that would be of interest to them.

### **Our Purpose:**

- We promote a relationship based experience of receiving care - care that supports a more natural life, promotes choice, control, independence and meets the social and emotional needs of the people we support.
- Improved listening and assessment - we understand 'what matters' and we know the person 'ordinarily'. In this context person centred support is only ever about the individual and founded on the persons individual needs for autonomy, inclusion, identity, attachment and comfort.
- Making it home – We recognise that "home" is different to us all and our homes reflect who we are as an individual. We will support the person to create a home and be at home; what comfort, security and individuality is to you. Shared areas will reflect the people who live in the home and their preferences. They will be involved in deciding themes, decoration and the layout of these spaces.
- Services support the spirit of the person. We will place equal importance on the social and emotional well-being of the person as well as their physical well-being.
- Services support families, friends and other important people to remain involved - they will feel involved and listened to and encouraged to actively advocate for

individuals in our care. They will develop relationships with staff and individual Keyworkers and work together to ensure person centred care is received for their loved ones

- The home looks, sounds and feels like a place for individuals to express themselves, have fun, make noise, be involved, be busy, find retreat and privacy and is at its heart whatever it needs to be to respond to how any person feels at any given moment.
- We recognise the importance of food and drink to a person's well-being. Mealtimes will be a relaxed and leisurely occasion. Food and drink will be available and visual to individuals at all time, so that food and drink can be enjoyed at a time that suits the individual. We will ensure we meet individual nutritional and dietary requirements.
- Maintaining connections with their local communities - to support people to maintain a sense of personal identity and inclusion in the local community. Communities will become more inclusive and awareness of dementia will increase. We will actively seek opportunities to engage in the local community both through accessing community and inviting community groups to visit regularly.
- Hierarchy - Services work closely with all those involved in supporting the person and direct relationships exist that support a seamless and autonomous approach.
- The role of our staff develops - We utilise the skills of staff more fully. Staff feel empowered, valued and their well-being improves. Staff are fully engaged and involved in developments within the home. Staff are suitably matched as far as possible to the individuals they work with.
- All people involved in the care and support of individuals actively promote the service outcomes above.

#### **Managers Expectation of this Role:-**

Simply, I am looking for people who can bring the reliability, commitment, integrity and enthusiasm that the people we support deserve. I need this because what we do matters.

#### **Here's what I am looking for from this role:**

#### **I need you:-**

- To ensure centre based services and activities look, sound and feel focussed on the individual; inviting, lively, active and stimulating.
- To actively work to safeguard individuals within POVA guidelines.
- To work with people in a way that continually demonstrates a focus on being person centred and relationship focussed. You will need to spend time getting to know the people we support and developing a relationship that supports your role as an 'attached professional' rather than someone who is 'detached'

- To act as the keyworker for some of the people we support taking a lead on liaison with other people involved in their support
- To help people with all aspects of daily living. This includes personal care provided in a way focusses on a person's feelings and in a way that turns tasks into positive social interactions.
- To work with people based only on a detailed understanding of their needs and wishes as described by the person themselves. To spend time to listen and engage with each person in a way that responds to who they are.
- To support the person to feel and be at home; to understand that home is different to all of us (clutter, tidiness etc....) and needs to reflect who we are as an individual. In addition your role will include supporting activity and occupation within the home / centre.
- To administer medication to individuals we support in line with GP guidance, MCC policy and individual's needs.
- To support people to maintain contact with, and reconnect, with their friends, family and local community. This will involve providing direct physical support and the emotional support to do this.
- To work with people in a positive way that ensures that all controlling elements of care are removed and there is no 'them and us'.
- To understand the importance of food and drink in people's lives ready to see meal times as an occasion and to sit and eat with the person being supported.
- To work in a way that supports spontaneity for the person
- To provide support directly to those 'informal' carers who are also supporting the person. You will understand the importance of supporting family, friends and others to remain involved in the care of the person.
- To actively implement the authority's policies and procedures.
- To be competent in using IT. You will need to maintain electronic files for individuals you support.
- To work flexibly with people. We need someone who is available to work shift patterns, weekends and bank holidays. To be flexible to change as and when needed to suit the needs of the service.
- You will need to be good at communicating. You will need to work closely with people interpreting and understanding the full range of ways in which people communicate. You will need to tell me, through observations and discussion, any concerns as to the health and welfare of the people we support.
- To be able to ask for (and provide) support from your colleagues to help overcome the challenges of this type of work. You will need to be person centred towards your colleagues.
- To be someone who is equally comfortable working as part of a team or working on their own.
- To be someone able to continually reflect on their own practice and personal development to identify where things could be done differently or better.
- To understand the importance of attending supervision and 1:1 meetings with your manager, ensuring you use all opportunities to share, learn and grow in your role. You need to understand the importance of, and taking responsibility for, self-directed learning and development in addition to a commitment to all training opportunities made available to you.
- To be able to build effective working relationships with a wide range of people.
- To be someone with ideas, open to change and new ways of working. However, you will need to follow specific and agreed protocols in relation to health & safety, moving & handling and medications
- To work across service areas providing a seamless and consistent approach to supporting individual.
