1. Proposal Description Please include a brief description of the proposal being explored and the core objectives. Please also include supporting evidence for the identified saving and/or pressure

1. **£1,044,000 pressure due to the additional in year placements as a result of ageing parents, move towards greater independence and demand for residential and/or college placements.** To date as at month 7 outturn for 2019/20 we have had an additional 8 high cost placement sin excess of £1,000 per week, which makes a total of 36 to date in excess of £1,000. This budget has demand from transitional children moving into adulthood. There are added pressures trying to get Continuing Health Care funding from Aneurin Bevan University Health Board and once funding is agreed, there is often a dispute around when Health should accept the placement and consequently the cost.

To offset the above pressure we are proposing the following savings: -

2. To align the non- staffing element of the S128 budget relating to the My Day My Life Services to reflect savings derived from the relocation of one service to premises with lower rental and business rates costs. There is no anticipated negative impact to this proposal and the non-staffing budgets will have sufficient funds to support the on-going premises costs. It is proposed that this will deliver a saving of £15,000.

3. To reduce the Disability Services Budget (S115) in line with projected spend for 2019/2020. This budget has historically been used to support strategic and service development initiatives and operational expenditure such as specialist equipment, furniture or adaptations. The spend has reduced over the last few years as a result of improved operational efficiency across the disability services area which has enabled the service to fund directly from their operational budgets. Therefore, the anticipated level for the forthcoming years is reduced and the proposal is to reduce the budget by £7,000 to reflect this.

2. Budget Impact In this section please include the savings and pressures identified and the overall budget impact resulting from this proposal. This must cover each year implicated.
