Pre-Application Service Guidance Notes

The Pre-Application Service

Purpose of the note

This guidance note is to help applicants understand the procedures for using our Pre-Application Service for Planning and related applications including Listed Building Applications.

What are pre-application discussions?

These are discussions between a prospective applicant and the Local Planning Authority to help understand the application process in relation to a particular proposal.

What are the benefits of having pre-application discussions?

Pre-application discussions are a discretionary service but due to the benefits of the discussions we encourage prospective applicants to discuss their development proposals with us at the earliest opportunity.

Benefits include: -

- Detailed discussions about your proposal.
- Identify the relevant current and emerging planning policies
- Identifying potential issues early on and provide help on how to resolve them.
- Suggestions to improve the proposal.
- A written response of all discussions.
- Establishing the information required when submitting an application in order to avoid incomplete applications
- To start to build and establish a relationship with the planning officers and other council officers who will be involved in deciding your application.
- Improving consistency, certainty and speed for users of the planning system
- Reducing the number of refusals
- Reducing the number of appeals
- Reducing the number of pre-commencement conditions

What won't pre-application advice do?

It cannot deliver a guaranteed outcome, i.e. a guaranteed planning permission or a formal view of planning committee. This is because: -

- Applications are subject to a wider consultation process than a pre-application enquiry and issues may come to light at a later date.
- The views given will be current at the time of giving the advice but changes in planning circumstances and policy will need to be taken into account when the application is decided
- Larger and/or more contentious applications will be decided by a planning committee made up of elected members. Whilst the committee will have an officer report and recommendation to consider, members may decide to give different weight to key issues and other considerations, in arriving at their decision

Is there a charge for the service?

There is a charge for the pre-application service. The cost will depend on the level and type of service requested. The charges relate to the amount of officer time that dealing with an enquiry will take.

Please note that your request for advice will not be processed without payment being received. If you request further advice after you have received your written response and we have closed the case, this will be chargeable.

For further information on charges please refer to the Charging Schedule (available via the website).

Service Level Options – An Overview

There are 2 types of service:-

Statutory Pre-application Service . This is the basic level of service that Local Authorities MUST provide as legislated by Welsh Government. It will be a desk top assessment based on a minimum level of information. The Authority will not enter in to any discussions regarding your proposal. You will be provided with a written response that will include; relevant planning history and planning policies you should consider. Any other planning guidance and material considerations and an initial view on the proposal

Monmouthshire Pre-application Service. This is a bespoke service and designed by asking our customers what mattered to them. It will provide all the elements of the statutory service, along with a meeting and an opportunity for you to discuss options and ideas with the Development Management officer as well as suggestions to help improve the proposal. If relevant, a Building Control Officer will also attend the meeting (free of charge) to advise on the relevant Building Regulation permissions required and any other considerations. The written response will include all details of the discussions, the relevant policies, history along with details of what is needed to be submitted with the planning application.
