BUILDING REGULATIONS
APPLICATION

THE BUILDING ACT 1984 & THE BUILDING REGULATIONS 2010 (AS AMENDED)

‘Helping people design and construct safe and sustainable buildings’

Application Notes

You may choose to submit either the ‘Full Plans’ or ‘Building Notice’ option for new building work however the ‘Building Notice’ option cannot be used where:

a) the building is a ‘designated use’ under the Fire Safety Regulatory Reform Order which includes offices, shops, factories and hotels and/or a workplace subject to Fire Precautions (Workplace) Regulations 1997 to enable consultation with the fire authority.
b) the building work is over or near a public sewer.
c) the proposed building fronts onto a private street.

Both application types incur the same charge

Full Plans Applications

One copy of this form should be completed and submitted with the appropriate fee and one copy of detailed plans and other information showing all construction details, preferably well in advance of when work is due to start on site.

Your application will be assessed and any relevant authorities will be informed (i.e. fire service, welsh water...).

If your plans comply with the Building Regulations then you will receive an approval (or conditional approval if you agree). If your plans do not satisfactorily comply with the Building Regulations then you may be asked to make amendments or provide more details. If your plans are rejected, the reasons will be stated in the notice.

A full plans approval notice is valid for 3 years from the date of deposit of the plans.

Building Notice Applications

Legislation requires that Building Notice applications must be paid up front and in full, otherwise we are unable to validate your application.

One copy of this application form should be completed and submitted with the appropriate fee and a site plan. Additional information may be requested, i.e. structural calculations.

This process does not involve the passing or rejecting of plans. It therefore avoids the preparation of detailed ‘full plans’ and is designed to enable some types of building work to get under way quickly; although it is perhaps best suited to small DOMESTIC work.

It is however advised that you submit any drawings/information you have relevant to your application.

If the work has already been undertaken please refer to our Regularisation application form.

Data Protection - Your personal information will be processed in accordance with our Privacy Notice of which a summary is attached.
