Annex 14 Action Plan

Childcare Sufficiency Assessment – Action Plan

The Action Plan must detail the actions, priorities and milestones to maintain strengths and address shortcomings identified in the Childcare Sufficiency Assessment. The tables below identify those areas which must inform the assessment as per the statutory guidance.

Assessment of demand

Strengths	Weaknesses	Actions	Milestones
72% of respondents claimed that there was enough childcare available in the language of their choice and most were happy with the quality and location of their childcare, particularly in relation to term time childcare.	77% of respondents felt that childcare was too expensive and take up of the childcare element of Working Tax Credit was minimal. There was a small unmet demand for childcare during atypical working hours.	Continue to promote the Family Information Service and advertise the availability of financial support to assist with the cost of childcare. Increase the opening hours of existing childcare providers to include atypical hours.	FIS complete monthly reports with details of any advertising carried out. FIS will also send update forms to childcare providers and the childcare supply will be updated accordingly and compared with the previous year.

Assessment of supply

Strengths	Weaknesses	Actions	Milestones
There is sufficient supply of childminders, full day care and sessional care settings throughout Monmouthshire. Most settings offer a range of services and session lengths and are usually flexible to meet the needs of families.	39% of out of school childcare settings are not registered with CSSIW. There is a shortage of holiday childcare in some areas. There is a lack of crèche facilities.	Register 3 out of school clubs with CSSIW. Develop an additional 3 holiday childcare settings.
