Training Equalities data 2024-2025

Monmouthshire County Council have adopted an inclusive approach to learning and development. All staff are encouraged to access training opportunities, and equal access is promoted based on availability and relevance to role. Equality training is mandatory for all staff and available on our e-learning platform.

We do not currently collect training data disaggregated by protected characteristics as the data could be too low level. However, this approach is subject to review to ensure it continues to support our equality duties under the Equality Act 2010.
