- Flood Defences

Notes
 The TAN15 Defended Zones have been created for the areas behind flood defences managed and maintained by Risk Management Authorities that have a minimum, Present Day Standard of Protection of 0.5% (1 in 200) annual event probability (AEP) for the sea plus climate change and freeboard. The map shows the flood risk data and information based on the map title and legend. If no data is displayed on the map, or not all features are present, this indicates that the respective flood source or features are not present within this area.
